ME

“ Lee was a dad to me. Another father who I got to grow up with for over 18 years. I wish we had never lost contact, but now at least I know why we did. I hope them people who were "nurses" get the justice they so deserve. And a life beyond bars and torment themselves as they have done Lee.

*He taught me strength, motivation, patience, soccer, we ran together, went to the gym, me my mom, brother Joshua and Lee. Joshua and I had some rough times growing up and not everything was always easy or sweet. But Lee was always there for us, taught us more than we ever thought we'd know.  
Miss you Lee and love you always!*

BC

“ I worked with Lee during his rehab and always admired his tenacity. I will remember him foundly.
